PINE, ALLOY & RIMU CORNER

Please note: All measurements detailed are in mm. The dimensions shown are nominal only. Actual floor protector dimensions may alter slightly to accommodate the varying sizes of the tiles used. **Pine and pacific rimu trim floor protectors** - When calculating the minimum size floor protector your heating appliance requires, the floor protector is the tiled area only: trim measurement "x" does not form part of the floor protector and must be deducted from your calculations. **Alloy trim floor protectors** - The overall dimensions constitute an "Ash Floor Protector" as the alloy trim is not a combustible material. Please consult your retailer for the full range of tile options available.
